

About Us

Dunathan Consulting helps rapidly growing businesses make the best use of their people, processes, and technology to support the business's growth and increase its future sale value.

"What I valued most about Andrea's partnership is her uncanny ability to thoroughly assess what we saw as challenges and translate them into meaningful opportunities for the business."

Managing Director, information services company

"[Andrea's] leadership in the analysis was crucial to our final success...The quality of her analysis and recommendations is without peer. I highly recommend Andrea."

Larry O., MIS Manager

Clients

Rapidly growing businesses that need to scale up operations to handle growth successfully.

Differentiators

Dunathan Consulting moves beyond traditional strategy advice to provide hands-on assistance in turning ideas and recommendations into operational reality. We adapt best practices to fit the client's organizational culture and needs, to help the business scale successfully.

Dunathan Consulting has been helping businesses, nonprofits, and local governments to make the best possible use of their resources to achieve their goals since its founding in 2004. If you want your business to run like clockwork while you focus on growth, give us a call.
